Dear Colleague:

Pursuant to House Rule 25, clause 5(d)(2), the Committee on Ethics hereby approves your and your spouse's proposed trip to Kenya scheduled for August 15 to 24, 2012, sponsored by the International Conservation Caucus Foundation.

You must complete a Member Travel Disclosure Form and file it with the Clerk of the House within 15 days after your return from travel. As part of that filing, you are required to attach a copy of this letter and the Private Sponsor Travel Certification Form, including attachments. Any tangible gifts valued in excess of \$350 received from a foreign government must, within 60 days of acceptance, be disclosed on a Form for Disclosing Gifts from Foreign Governments and either turned over to the Clerk of the House, or, with the written approval of the Committee, retained for official use.

If you have any further questions, please contact the Committee's Office of Advice and Education at extension 5-7103.

2236 Rayburn House Office Building
Washington, D.C. 20515

Dear Congressman Bonner,

We are pleased to invite you, as a member of the United States House International Conservation Caucus, and your wife, Janee, to join the International Conservation Caucus Foundation on a field mission in the Republic of Kenya from August 15th to 24th, inclusive of travel days.

The purpose of the proposed educational field mission is to familiarize and educate the delegation about the critical role that conservation and sound natural resource management play in poverty alleviation, sustainable economic development, global fresh water and food security, and thus regional stability in Africa, as well as in other parts of the world.

The following Congressional Members and one of their family members are also being invited to join the delegation:

- Congresswoman Diane Black (R-TN)
- Congresswoman Kay Granger (R-TX)

Exclusive of travel days, the delegation will be visiting Kenya from August 17th to August 22nd. While there, the delegation will meet with government officials and leading local and U.S.-based conservation organizations. Through this mission you will gain a firsthand look at creative ways USAID and other international funding and private investments are being utilized to preserve Africa's important wildlife species and ecosystems, while supporting local community enterprise ventures and advancing US interests in the region.

No portion of the course or trip is financed by a lobbyist or a registered foreign agent.

ABOUT ICCF

EXECUTIVE SUMMARY

The International Conservation Caucus Foundation (ICCF) is a nonprofit 501(c)(3) educational organization which has assembled a powerful collection of corporate and NGO leaders (ICCF's Conservation Council) committed to achieving market-oriented solutions in conservation and sustainability worldwide, **to educate the world's political and business leaders on the vital links between good natural resource management and sustainable development.**

The ICCF works with the leadership of the **U.S. Congressional International Conservation Caucus**, which comprises **one-third of the U.S. Congress**, to educate policymakers on issues of international conservation. **We do this by hosting a regular series of Congressional Member and Staff Dinner, Luncheon, and Coffee Briefings as well as providing vital information on a regular basis to the Congress on a broad array of subjects related to the conservation work, successes, needs, and goals of our Conservation Council partners.** More and more, Congressional leaders depend on ICCF and our corporate and NGO partners for a steady stream of balanced recommendations for their consideration before formulating conservation policies.

ICCF has a strong history of innovative and highly successful initiatives, including playing a significant role in the creation of the Congo Basin Forest Partnership. Supported by ICCF's educational programs and missions, the bipartisan leadership of the U.S. Congressional ICC has promoted successfully the authorization and evaluation of: passage of the Tropical Forest Conservation Act and expansion to include coral reefs and mangrove forests ("The Forests & Coral Conservation Act"); Multinational Species Conservation Fund allocations; introduction of the Great Cats and Rare Canids Act; federal spending allocations for the ICCF Advisory Council's annual Biodiversity Budget, leveraged by match of private sector funds and contributions by ICC-mentored donor and host nations; and, passage of the Multinational Species Conservation Funds Semipostal Stamp Act, among others.

Our programs provide many avenues for our partners to educate a wide and effective audience in the Washington community, as well as our corporate, institutional, and NGO partners, about their conservation and sustainability policies and practices. This enables our partners to demonstrate the importance of good policies that encourage industries and organizations to exponentially decrease their environmental footprint.

ICCF's Congressional Briefings range in attendance from smaller, more intimate events of 25 to larger gatherings of more than 500 people. Members of Congress, Cabinet Secretaries, Administration officials, Ambassadors, and top ranking officials of the World Bank, Global Environment Facility, International Monetary Fund, and other international organizations join corporate heads and civil society leaders for Congressional Member events. Staff events host senior professional Congressional Staff, such as Chiefs of Staff and Legislative Directors.

ICCF also hosts highly effective educational Field Missions for Members of Congress and senior Staff. These educational field missions provide an outstanding opportunity for key U.S. policymakers to study successful public-private conservation partnerships in foreign countries and identify areas of greatest concern where financial and human resources can deliver the highest return on investment.

ICCF's Conservation Council of Nations (CCN) is a powerful global network of partner nations to establish and foster global diplomatic and parliamentary relationships with ICCF's strong base of corporate & NGO partners and government leaders to build consensus on issues relating to good natural resource management. Working with the leadership of the International Conservation Caucuses in the U.S. Congress, through CCN partner embassies in Washington and their parliaments at home, and relying on the strength and diversity of ICCF's broad partner base, the CCN has an unprecedented opportunity to become an active global force in conservation. **The CCN, which has 45 member countries to date plus the European and African Unions, launched formally in New York on September 19th, at an event during the UN General Assembly.** Guests included Heads of State, Ministers, Members of Parliament, and leaders in U.S. government as well as in the business and NGO communities.

ICCF's Oceans Caucus Foundation (OCF) is a 501(c)(3) non-profit organization within the organizational structure of ICCF created to support the bipartisan U.S. Congressional Oceans Caucus by educating U.S. and international policymakers about issues of ocean conservation worldwide, including marine ecosystems and biodiversity.

5) Provide names and titles of ALL House invitees; for each invitee, provide explanation of why the individual was invited

The Honorable Jo Bonner and his wife, Janee

The Honorable Diane Black and her husband, David

The Honorable Kay Granger and her son, J.D.

Each individual was invited so that they could become familiarized and educated on the critical role that conservation and natural resource management play in poverty alleviation, sustainable economic development and regional security for East Africa and other countries around the world, including the United States.

12 & 13) Private sponsors must have a direct and immediate relationship to the purpose of the trip or location being visited. Describe the role of each sponsor in organizing and conducting the trip AND describe each sponsor's organizational interest in the trip

Kenya is home to much of the world's biodiversity, and while it is a leader in combating poaching, wildlife is still poached in record numbers and is trafficked through Kenyan borders. The purpose of this trip is to familiarize and educate the delegation about the critical role that conservation and sound natural resource management play in poverty alleviation, sustainable economic development and regional security for East Africa and in other countries around the world, including the United States as well.

The International Conservation Caucus Foundation (ICCF) educates U.S. policy makers and the world's political and business leaders on the vital links between good natural resource management and sustainable economic development, poverty alleviation, and regional security.
